

Strategic Plan

BOSSI is the Board of Surveying and Spatial Information, constituted under the Surveying and

Spatial Information Act 2002, and is the statutory body responsible for:

- providing registration of land and mining Surveyors
- developing standards in surveying and spatial information in NSW
- providing advice to Government on spatial information.

The Surveying and Spatial Information industry in NSW underpins economic activity estimated to be in the order of \$30B, with revenues and charges to Government of around \$5B annually. BOSSI has developed a Strategic Plan for 2012-2015 which identifies the following 3 key challenges:

Key Challenge 1. Maintain Land & Mining Surveying registration, standards & numbers to support NSW economic activity and the integrity of the state cadastre

Key Challenge 2. Establish Sustainable Funding

Key Challenge 3. Engage the Spatial Information industry.

Vision

Government, business and community have increased access to and improved confidence in surveying and spatial information services in NSW.

Mission

The Board's leadership role is to ensure that confidence is maintained in the integrity and provision of focused and sustainable survey and spatial information services for the benefit of the community and the economy of NSW.

Objectives

BOSSI's primary aims and objectives for Surveying and Spatial Information are:

- To establish and maintain competency standards and to grant registration to surveyors under the provisions of the Surveying and Spatial Information Act 2002
- To maintain the register of registered land and mining surveyors in NSW
- To work with education and professional institutions to develop educational and training programs to ensure that the required quality standards in education and professional development are maintained
- To assist surveyors' assistants and students of surveying to gain qualifications by determining, recording and accepting accrued practical experience.
- To encourage spatial information practitioners and registered surveyors to undertake appropriate education and relevant continuing professional development to maintain competency.
- To identify key spatial sector stakeholders and to develop communication and promotion strategies and benefits for the Board, the public and private sectors.
- To advise the Minister on matters relating to surveying and spatial information.
- To advise the Minister on the maintenance of the integrity of the state cadastre.
- To develop policies, assess and recommend quality standards for collection, collation, management and dissemination of all identified types of spatial information relevant to the NSW Spatial Data Infrastructure (SDI).
