In accordance with the *Surveying and Spatial Information Regulation 2017*, (the Regulation) Part 3, Division 2, Clause 77(1)(d), the Board of Surveying and Spatial Information (BOSSI, the Board) makes the following determination recognising abilities and experience (whether for a person or a class of persons) for the purposes of the definition of surveyor's assistant in Clause 5(1).

Variations or exemption applications may be considered on application in writing to the Board.

Surveyor's Assistant Determination

This formal Board determination defines a surveyor's assistant as a person:

- a) who is the holder of a recognised qualification; or
- b) is the holder of a technical qualification in surveying and who has three years practical experience acceptable to the Board in surveying since completion of that course of study;
or
- c) who has at least 10 years practical experience in surveying acceptable to the Board.

A person may make an application to the Board to have their abilities and experiences assessed to determine if they qualify the person to be a surveyor's assistant. Applications, along with required documentation and payment of the applicable fee must be made via the [BOSSI portal](#) on the Service NSW website.

A surveyor's assistant may carry out surveys under the general supervision of a registered surveyor who takes responsibility for their work.
