

## BOSSI Update

### NSW Surveyor General's Women in Surveying Undergraduate Scholarship

Congratulations to Emma Tinlin from the University of Newcastle who was awarded the NSW Surveyor General's Women in Surveying Undergraduate Scholarship for 2021.

Hello, my name is Emma Tinlin. I am a first-year student studying surveying.

A few years ago, our school attended a careers' expo, where I had the opportunity to have a first glimpse at the surveying profession by completing various activities which I found really interesting. Later on, I did my own research about surveying and also received positive feedback from professionals within the field who described it as a rewarding career.

I am enthusiastic about being accepted to the surveying degree and very grateful to receive the NSW Surveyor General's Women in Surveying Scholarship, which I find extremely prestigious. As the scholarship will be recorded on my academic transcript, I hope it will give me more opportunities to gain work experience in this field.

## Registration Renewals and CPD Compliance

Thank you to those surveyors that have already undertaken their registration renewal and supplied evidence of their compliance with the Boards CPD Determination.

As of 30 July 2021, BOSSI has processed and approved the renewal of over 600 Registered surveyors. The renewal period is still open until 31 August 2021 for those surveyors yet to make payment and upload evidence of the CPD compliance.

For surveyors that are short CPD points for the 2020 / 2021 CPD Year, a conditional compliance of CPD application is required to be sent to BOSSI by 31 July 2021 to avoid being removed from the Register of Surveyors for non-compliance of CPD.

You can access the form via

Applications for conditional compliance of CPD are to be sent to the BOSSI Secretariat at [bossi@customerservice.nsw.gov.au](mailto:bossi@customerservice.nsw.gov.au)

### BOSSI Examinations

The COVID-19 situation is changing regularly, and while BOSSI intends to hold examinations for land and mining Candidates in October 2021, there is a risk

that if the situation remains escalated or expanded beyond current lockdowns and restrictions, that the restrictions may prohibit BOSSI from conducting the exams.

BOSSI will review the situation and advice from Government over the next 4 weeks and will provide an update to surveyors as to the Board's intention to proceed or cancel examinations in October 2021.
